What are possible inquiry topics? (Think science fair, country project, art projects, etc.)

What is the problem or issue with this topic? How will you know this is a problem? What evidence might you get?

What might be the essential question for this problem or issue? In other words, what will be the main focus of your inquiry?

What will your action plan be? Who might be your target audience and what will you do with them?

How will you present your exhibition to your peers and guest evaluators?
